

We have experienced intense and exciting months with you,
dedicated to important innovations, such as
the ones presented at Interzum and not only..
Now it's time for a short summer break to prepare
ourselves for great new objectives.

**The company will be closed
from 12 to 26 August.
We will be back on 27 August**

even more determined to continue researching,
planning and producing solutions that allow
us to always be your best partner.

See you soon!
